

GEOLINE LOGGING SERVICES HSECQ POLICY

Geoline Logging Services is a geophysical wireline service company committed to applying the principles of a sustainable development in its business activities. Health, safety, environment community and quality responsibilities are integral to the way we do business.

We are committed to the prevention of pollution and continual improvement in our Health, Safety, Environment, Community and Quality performance.

We acknowledge that we have a responsibility to meet our customers' requirements in a cost effective way.

We are committed to an Integrated Management System based on the sound risk management principles and structures that:

- a) are consistent with internationally recognized standards,
- b) comply as a minimum with all legal requirements.

Furthermore, we will maintain a Health , Safety and Environmental programme in order to promote:

- a) an acceptable degree of physical, mental and social well being of our employees and other persons affected by our work procedures,
- b) and achieve an acceptable level of performance in all facets of safety of our employees and other persons affected by our work procedures.

We shall promote Community awareness and hope to aid the growth and improvement of the quality of life of our employees.

We will maintain our Management system and continue to determine its direction to fall in line with our clients' requirements. This will be done by the measurement of customer satisfaction and the setting of objectives.

Geoline Logging Services Management.
